UniView™

## Intelligent Display for Next Generation Data Aggregation and Alarm Visualisation

> UniView aggregates data and alarms from multiple Masimo and third-party devices – such as patient monitors, ventilators, anaesthesia machines, IV pumps and others connected through Masimo systems – on a supplemental display

> Integrated real-time data visualisation reduces cognitive overload and promotes data sharing among multiple clinicians, enabling them to spot trends and coordinate care

> Visual alarm indicators, relayed from connected devices, help care teams recognise patient distress and target areas for clinical focus

> Tailored use-case-specific screen layouts optimise the presentation of advanced and integrated parameters, trend data, and waveforms in critical care areas

> Adaptable layout automatically reconfigures based on connected devices
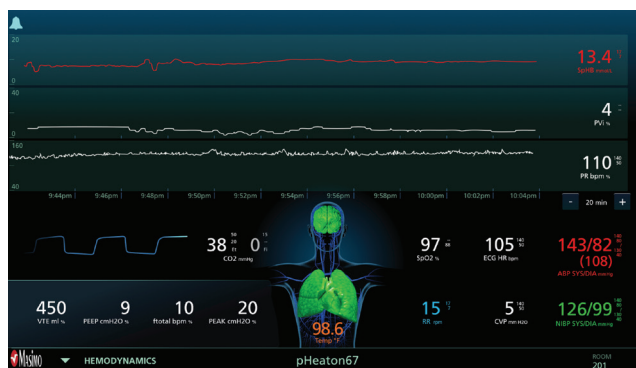

MASIMO

Tailored Screen Layouts

Use-case-specific screen layouts allow clinicians to view the most pertinent data applicable to a clinical care team
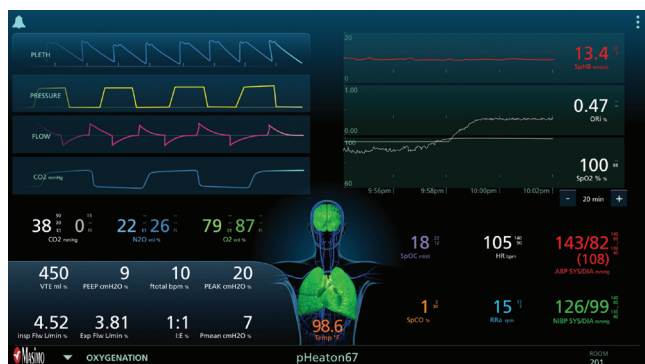

Overview Layout

Adaptable layout automatically reconfigures based on connected devices to optimise the view of parameter data, including waveforms and alarms, for an overview of patient status

Haemodynamics Layout

View trend data for noninvasive haemoglobin (SpHb®), pleth variability index (PVi®), and pulse rate (PR) to aid in visualising a patient's status over time

Oxygenation Layout

View ventilator waveforms alongside noninvasive trended haemoglobin (SpHb) and oxygen saturation (SpO2) to monitor a patient's oxygenation status

Sedation Layout

View high-fidelity EEG waveforms, patient state index (PSi), and anaesthesia machine data to monitor a patient's depth of anaesthesia

Ordering Information

	Part Number
UniView Mini-PC	9856
Required Masimo System Components	
Patient SafetyNet™*	9095
Iris Gateway™	9712

*The use of the trademark SafetyNet is under license from University HealthSystem Consortium.

ORi™ has obtained CE Marking. Not available in the U.S.
ORi is not licensed for sale in Canada.

For professional use. See instructions for use for full prescribing information, including indications, contraindications, warnings, and precautions.
